

Every five years, Texas A&M AgriLife Extension Service hosts the Texas Community Futures Forum and invites the public to help identify and prioritize issues that are being faced with in the community. Our local Extension program has a rich history of providing educational programs that address local issues facing the areas of Agriculture & Natural Resources, Community & Leadership, Family & Community Health, and 4-H & Youth Development.

These forums are being held in each county throughout Texas for the next few months, to ensure everyone can take part in the discussion and ensure that the educational programs being planned are on target. Our ability to meet the educational needs of our community depends on knowing what our community members see as the issues that impact their lives. To learn what those issues are, we rely on community members like you to help us identify the problems and issues facing Texans today.

Please join us to participate in the 2024 Texas Community Futures Forum (TCFF) to be held on Wednesday, April 10, 2024, from 5:30 p.m.-7:30 p.m. at IBC Bank (2<sup>nd</sup> floor), Eagle Pass, TX.

Your opinion is highly valued in our community, we look forward to seeing you.

Thank you,

*Blanca V. Ruiz*
